

Now you can recycle almost all plastic bottles & containers!

Now recycle most PLASTIC BOTTLES AND CONTAINERS with #1 - #7 inside the triangular shaped recycling symbol.

Plastics collected will be made into new plastic products such as carpeting clothing, garden furniture and accessories, new plastic bottles and a variety of other products.

HERE'S HOW.

1 Remove and throw away caps, lids and spray pump tops.

2 Empty contents and rinse. You don't need to remove labels.

3 Crush plastic bottles by carefully stepping on them so they take up less room in the recycling container. Hold onto a counter-top or doorway so you don't slip.

4 Place uncapped and flattened empty plastic bottles in your recycling container along with your other recyclables.

DO recycle these kinds of empty plastic bottles & containers: (rinse containers and discard all tops)

Food & Beverage

Soda
Milk
Water
Juice
Syrup
Liquor
